ARIAT

FR® WORKWEAR CARE INSTRUCTIONS

WARNING: Failure to launder garment properly can result in loss of flame-resistance properties.

- Ariat does not recommend dry cleaning FR garments. In some cases dry cleaning chemical residue left on the fabric could burn.
- Due to the various care instructions of different fabrics and styles we recommend following the care instructions listed inside each individual garment.
- Flame-resistant workwear should be laundered separately from the family wash to prevent cross contamination.
- Washing new garments before wearing is recommended. Wash new garments separately from other garments.
- Turn garment inside out before washing for best results.
- Machine wash using typical home laundry detergent.
- Liquid detergents or other products containing hydrogen peroxide should not be used.
- Avoid starch, fabric softener or any other laundry additives such as soil release or antistatics.
- Bleach must never be used on FR fabrics.
- Chlorine bleach (sodium hypochlorite) and oxygen bleach (hydrogen peroxide), either alone or in combination with other chemistry must never be used.
